DETAILED ACTION

Information Disclosure Statement

The information referred to in Applicant's information disclosure statement has been considered.

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 45, 46 and 86. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In line 6 of claim 2, it is unclear if "said seat unit" is intended to be the same feature as the previously set forth "seating unit". Line 1 of

Art Unit: 3636

claim 9 is grammatically vague. Note the recitation "seating device of claim 7 an including an arm rest". Lines 1 to 2 of claim 11 are grammatically vague. Note the recitation "wherein in said plurality of wheels are removable mounted to said primary frame". The remaining claims are indefinite since each depends from an indefinite claim.

Allowable Subject Matter

Claims 2-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 1 is allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. A glider assembly is shown by each of Boyce (4796949) and Noll (6695401). Munroe (5163188) shows a seating arrangement with a removable wheel assembly. A seating arrangement with a lift assembly is shown by each of Pillot (5556121) and Krapu (6189164).
